Summary

I have graduated from Tallinn University of Technology with a Bachelor in Computer Systems Engineering.

I am passionate about designing & building beautiful responsive web applications. Currently working full time as a Web developer/designer, mainly focused on crafting intuitive and dynamic user experiences (websites and eCommerce stores), while also focusing on SEO, security and optimization.

My main interests lie on learning new technologies and bringing unique ideas into life!

Feel free to get in touch with me if you need a website or an online store. I am always open to discussing new projects, creative ideas or job opportunities.
